## SUBJECT INDEX

Accidents, nonfatal, in children under supervision in child health stations of New York City 415
Acid phosphatase (See Phosphatase)
Adolescence, conflicts and rebellion during 839
Adrenocortical hyperplasia, congenital, polycythemia and (Letter) 500
Adrenocorticosteroids, adrenocorticotropin
  Plasma 17-hydroxycorticosteroids in diabetic mothers and in umbilical cords of offspring at time of delivery (Letters) 333
  Regrowth and overgrowth of thymus after atrophy induced by 762
Amaurotic family idiocy, infantile, occurrence, genetics and pathophysiology in the non-Jewish infant 229
American Academy of Pediatrics (AAP)
AAP Clinical Conference
  Genital abnormalities in infants associated with administration of progesteroids to mothers 151
AAP E. Mead Johnson Award Address
  Studies on smallpox and complications of smallpox vaccination 176
AAP Panel Discussion
  Practice of pediatrics 872
AAP President's Message
  Communication 870
  Leadership 1031
AAP Reports of Committees
  Control of Infectious Diseases
    Poliomyelitis immunization 331
  Nutrition
    Composition of milks 1039
    Trace elements in infant nutrition 715
  Subcommittee on Accidental Poisoning
    Hazards of boric acid 884
AAP Round Table Discussion
  Emotional and behavior problems in children 700
American Board of Pediatrics, report on 1960 written examination 1022
Anemia
  Iron deficiency in premature infants

Oral and intramuscular iron in prevention of 375
Significance, and prevention by intramuscular iron-dextran 368
Iron-dextran, experimental carcinogenesis with (Commentary) 347
Sickle cell, hyposthenuria in 249 (Letters) 1051
Thalassemia, effect of splenectomy on 674
Anoxia
Blood pressure of newborn infants with 735
Effect of asphyxiation of fetus and newborn (Commentary) 565
Neurologic lesions in relation to asphyxia of newborn and factors of pregnancy: long-term follow-up 616
Antibiotics in meningitis, acute bacterial, with particular reference to use of combinations (Letters) 498
Antibodies, staphylococcal, in cystic fibrosis of the pancreas 792
Apparatus, urine and stool collection in young infants 828
Appendix testis, torsion of 611
Arrhythmia, sinus (See Heart, disorders of rhythm)
Arteriography, renal, complication of 822
Arteriovenous fistula and heart failure in newborn
Cerebral 596
Internal mammary artery and ductus venosus 604
Aspergillosis, generalized, in young infant 432
Asphyxia (See Anoxia)
Asthma, juvenile intractable, community approach to 586
Atresia
Biliary (See Biliary atresia)
Jejunum and ileum, resection and primary anastomosis in management 265
Rectal and jejunal in newborn 122
Auscultation of the heart in infants and children (Supplement) 511

Bacteriology, blood cultures from umbilical vein in newborn infant 657
Balance studies
Collecting urine, stool for 828
Electrolyte, in newborn premature infants 777
Nitrogen
Comparison of protein from human milk and cow's milk in promoting nitrogen retention in full-term infants 51
In newborn premature infants 777
Behavior
Adolescence, conflicts and rebellion during 839
Discipline 1033
Disorders (Round Table) 700
Biliary atresia
Liver function tests in 630
Surgical exploration in infancy 27
Bilirubin, reliability of determinations in icterus of newborn (Commentary) 350
Blood cultures from umbilical vein in newborn 657
Blood pressure of newborn infants in asphyxial states and in hyaline membrane disease 735
Body composition
Bromide space (extracellular volume), corrected, in newborn 397
Connective tissue, effect of alterations in extracellular fluid on composition of 915
Hypertonicity, experimental; pathogenesis of clinical syndrome, biochemical abnormalities and cause of death 925
Metabolite sequences in muscle in kwashiorkor, relations of intracellular ions to 960
Of newborn infants of diabetic mothers 985
Bone marrow biopsy with Silverman needle 310
Book Reviews
Caraway, W. T.: Microchemical Methods for Blood Analysis 595
Ciba Foundation Study Group No. 4: Virus Virulence and Pathogenicity 821
Dimock, H. G.: The Child in Hospital: A Study of His Emotional and Social Well-Being 992
Fleischmajer, R.: The Dyslipidoses 914
Gallagher, J. R.: Medical Care of the Adolescent 807
Garner, A. M.: The Mother-Child Interaction in Psychosomatic Disorders 1058
Hottinger, A.: Modern Problems in Pediatrics, Vol. VI: Renal Function and Kidney Disorders in Childhood 938
Lanman, J. T.: Physiology of Prematurity, Fourth Conference of the Josiah Macy, Jr. Foundation 791
Lennox, W. G.: Epilepsy and Related Disorders 972

Miller, F. J. W.: Growing Up in Newcastle upon Tyne: A Continuing Study of Health and Illness in Young Children within Their Families 776
Ravitch, M. M.: Intussusception in Infants and Children 827
Rose, H. M.: Viral Infections of Infancy and Childhood 861
Sarason, S. B.: Anxiety in Elementary School Children: A Report of Research 891
Williams, R. H.: Diabetes 585
Books, children's, collecting 684
Boric acid, hazards of (Report of Committee) 884
Bromide space (extracellular volume), corrected, in newborn 397
Busulfan (Myleran), transplacental transmission in mother with leukemia; fetal malformation and cytology (Letters) 161

Carcinogenesis, experimental, with iron-dextran (Commentary) 347

Cartilage, calcification of, in trachea and larynx associated with congenital stridor 669
Cell, Symposium on 452
Genetic control of cellular biochemistry 459
Interaction of enzymes and hormones 476
Mitochondria, enzymic and morphologic organization of 466
Relation between structure and function 454
Central nervous system
Amaurotic family idiocy, infantile, occurrence, genetics and pathophysiology in non-Jewish infants 229
Neural lipidoses, rectal biopsy in diagnosis 225
Neurologic lesions in relation to asphyxia of newborn and factors of pregnancy 616 (Commentary) 565
Chimpanzee coryza-agent (See Respiratory syncytial virus)
Chloride in connective tissue, effect of alterations in extracellular fluid on 915
Choline esterase in serum, lack of inhibition by nupercaine in cystic fibrosis of the pancreas (Letter) 722
Chondroectodermal dysplasia (Ellis-Van Creveld syndrome) 301
Cleft lip and cleft palate, mid-facial contour in 387
Coarctation of the aorta (See Great vessels)
Collecting children's books: a rewarding pastime 684
COMMENTARIES
Asphyxiation, effects on fetus and newborn 565
Bilirubin determinations in icterus of newborn, reliability of 350
Comprehensive pediatrics, dimensions of 729
Cretinism, early recognition of 732
Iron-dextran, experimental carcinogenesis with 347
Mycobacteria, unclassified 563
Congenital malformations (See also Individual disorder)
In fetus of mother with leukemia treated with busulfan (Myleran) (Letters) 161
Maternal rubella and, prospective experience 200
Connective tissue, effect of alterations in extracellular fluid on composition 915
Convulsions (See Seizures)
Cow's milk
Comparison of protein from human milk and, in promoting nitrogen retention in full-term infants 51
Composition of (Report of Committee) 1039
Cretinism, early recognition (Commentary) 732
Cystic fibrosis of the pancreas
Choline esterase in serum, lack of inhibition by nupercaine in (Letter) 722
Staphylococcal antibodies in 792
Tooth discoloration in (Letter) 1050
Cytology of urinary sediment in childhood 255

Delinquent, individual, pediatrician and 126
Diabetes
Insipidus, renal (vasopressin-resistant) 808
Mellitus, mothers with
Body composition of infants of 985
Plasma 17-hydroxycorticosteroids in, and in umbilical cords of offspring at time of delivery (Letters) 333
Discipline 1033

ECHO-9 virus infection, clinical and epidemiologic observations during epidemic of 12
EDUCATION
Evaluation of pediatric house officer program 858
Family health clinic, pediatric experience in 1024
Group discussions with mothers of hospitalized children 132
International postgraduate training in social pediatrics 315
Therapeutic nursery school, role of pediatrician in 491
Education
Comprehensive pediatrics, dimensions of (Commentary) 729
Pediatric residency (Letter) 162
Pediatric view of general 689
Electrolytes
In muscle, relations of intracellular ions to metabolite sequences in kwashiorkor 960
In newborn premature infants 777
Electrolyte therapy (See Fluid and electrolyte therapy)
Ellis-Van Creveld syndrome (chondroectodermal dysplasia) 301
Endocardial fibroelastosis associated with generalized glycogenosis 86
Endocarditis, bacterial, in children with heart disease (Review) 993
Enterovirus infection, clinical and epidemiologic observations during epidemic of ECHO-9 infection 12
Enzymes
Acid phosphatase in normal infants and children 281
Glucose-6-phosphate dehydrogenase in erythrocytes of patients with various abnormal hemoglobins 285
In mitochondria 466
In muscle, relations of intracellular ions to metabolite sequences in kwashiorkor 960
Interaction with hormones 476
Epidemiology
Accidents, nonfatal, in children under super-

vision in child health stations in New York City 415
Enterovirus infection in circumscribed community during epidemic of ECHO-9 infection 12
Epidermolysis bullosa letalis (Letters) 886
Erythema toxicum neonatorum, histologic observations in 219
Exchange transfusion
Mortality of 745
Negative pressure in umbilical vein, hazard of 661

Family health clinic, pediatric experience in 1024
Feeding, infants
Comparison of protein from human milk and cow's milk in promoting nitrogen retention in full-term infants 51
Composition of milks (Report of Committee) 1031
Dextrose and saline solution given early to premature infants 756
Practices in Israel 321
Trace elements in (Report of Committee) 715
Vitamin $B_6$ content of infant foods 679
Fetus, malformation of, from mother with leukemia treated with busulfan (Myleran) (Letters) 161
Fluid and electrolyte therapy
Depletion of potassium, sodium and water on function and structure of kidney 939
Gamble's ideas and terminology 907
Hypertonicity, experimental, and 925

Gamble, James L.
A tribute 897
Facsimile excerpts from first major paper 903
His concepts and terminology in relation to fluid and electrolyte therapy 907
Origins of his investigations and analysis of contributions to physiology and medicine 899
Photograph of 898
Gamma-globulin
Hyperimmune vaccinal, sources of 336
Hypogammaglobulinemia 817
Gastrointestinal tract (See Intestine)
Gastrostomy, temporary, in pediatric surgery 36
Genitourinary system (See Urogenital system and individual disorders)
Genetics, control of cellular biochemistry 459
German measles (See Rubella)
Glucose-6-phosphate dehydrogenase in erythrocytes of patients with various abnormal hemoglobins 285
Glycogenosis (glycogen storage disease), endocardial fibroelastosis associated with 86
Great vessels, congenital defects (See also Heart, congenital defects)
Coarctation of aorta in infants 109
Group therapy with mothers of hospitalized children 132
Growth and development
Intellectual
Environmental factors before and after birth affecting 210
Heredity and environment in (Commentary) 175

Heart (See also Great vessels)
Auscultation in infants and children (Supplement) 511
Congenital defects, bacterial endocarditis in children with (Review) 993
Diseases of, endocardial fibroelastosis with generalized glycogenosis 86
Disorders of rhythm, sinus arrhythmia, patterns from ages 1 month to 23 years 402
Failure and arteriovenous fistula in newborn
Cerebral 596
Internal mammary artery and ductus venosus 604
Hemadsorption viruses (para-influenzae) in children with and without respiratory disease 243
Hemangiomata, macrocephaly and pseudopapilledema (heredofamilial syndrome) 293
Hemoglobins, abnormal, glucose-6-phosphate dehydrogenase in erythrocytes of patients with 285
Hemolytic disease of the newborn (See also Bilirubin)
Exchange transfusion
Mortality of 745
Negative pressure in umbilical vein, hazard of 661
Hernia, abdominal, pneumoperitoneum in correction of 273
Historical
Gamble, James L.
A tribute 897
Facsimile excerpts from first major paper 903
Origins of his investigations and analysis of contributions to physiology and medicine 899
Hobby, collecting children's books 684
Hormones (See also individual hormone)
Interaction with enzymes 476
Hospitalization
Care of fatally ill children, participation of parents in 482
Group discussions with mothers of hospitalized children 132
Human milk
Comparison of protein from cow's milk and, in promoting nitrogen retention in full-term infants 51
Composition of (Report of Committee) 1039

Hyaline membrane
Disease (See Respiratory distress syndrome)
Relation to certain factors in pregnancy and delivery 42
Hypernatremia, experimental; pathogenesis of clinical syndrome, biochemical abnormalities and cause of death 925
Hypertension, stenosis of branch of renal artery causing; complication of translumbar renal arteriography 822
Hypertonic dehydration, experimental; pathogenesis of clinical syndrome, biochemical abnormalities and cause of death 925
Hypogammaglobulinemia 817
Hyposthenuria, pathogenesis in sickle cell anemia trait 249 (Letters) 1051
Hypothermia, use in children 146
Hypothyroidism, early recognition in newborn (Commentary) 732

Icterus (See Jaundice)
Immunization
Poliomyelitis (Report of Committee) 331
Smallpox, complications of 176
Infant feeding (See Feeding, infant)
Intellectual development
Environmental factors before and after birth affecting 210
Heredity and environment in (Commentary) 175
Intestine
Atresia
Jejunum and ileum, resection and primary anastomosis in management 265
Rectal and jejunal in newborn 122
Perforation of small, in neonatal period 261
Iodine, radioactive, concentration in thyroids of newborns 771
Iron deficiency anemia (See Anemia)
Iron-dextran
Experimental carcinogenesis with (Commentary) 347
In prevention of iron deficiency anemia in premature 368, 375
Israel, infant feeding practices in 321

Jaundice
Bilirubin determinations in newborns with, reliability of (Commentary) 350
Obstructive, surgical exploration in 27
Juvenile delinquency, pediatrician and individual delinquent 126

Kidney (See also Renal)
Effect of potassium deficiency on 950
Korea, pediatrics in 696
Kwashiorkor, relations of intracellular ions to metabolite sequences in muscle in 960

Leukemia, malformation of fetus from mother treated with busulfan (Myleran) (Letters) 161
Lipidoses, neural, rectal biopsy in diagnosis 225
Liver
Function tests in biliary atresia 630
Surgical exploration in obstructive jaundice 27
Lungs, hyaline membrane, relationship to certain factors in pregnancy and delivery 42
Lupus erythematosis, systemic 570

Macrocephaly, pseudopapilledema and multiple hemangiomata (heredofamilial syndrome) 293
Medical care
Comprehensive pediatrics, dimensions of (Commentary) 729
In Republic of Korea 696
Institutional care of children 693
Practice of pediatrics
Changing trends in (Letter) 162
Consultant pediatrician in general practice area 862
Group (Panel Discussion) 876
Management of—a philosophy 141
Mixed group (Panel Discussion) 877
Panel Discussion 872
Psychologic aspects (Panel Discussion) 881
Solo practice (Panel Discussion) 874
Meningitis, acute bacterial; antimicrobial therapy with particular reference to combinations of antibiotics (Letters) 498
Mental retardation, amaurotic family idiocy, infantile, occurrence, genetics and pathophysiology in the non-Jewish infant 229
Mid-facial contour in cleft lip and cleft palate 387
Milks
Composition of (Report of Committee) 1039
Cow's (See Cow's milk)
Human (See Human milk)
Mitochondria, enzymic and morphologic organization of 466
Muscle composition, relations of intracellular ions to metabolite sequences in, in kwashiorkor 960
Myasthenia gravis in the newborn 101
Mycobacteria, unclassified (Commentary) 563
Myleran (See Busulfan)

Nephrosis, nephrotic syndrome, renal tubular dysfunction complicating 75
Nervous system (See Central nervous system)
Newborn infants (See also Fetus)
Arteriovenous fistula and heart failure
Cerebral 596
Internal mammary artery and ductus venosus 604
Asphyxiation, effect of (Commentary) 565
Atresia
Jejunum and ileum 265
Rectal and jejunal 122

Newborn infants (*continued*)
Bilirubin determinations in icterus, reliability of (Commentary) 350
Blood cultures from umbilical vein 657
Blood pressure in asphyxial states and in hyaline membrane disease 735
Bromide space (extracellular volume), corrected, in 397
Congenital defects and maternal rubella 200
Discussing problems of, with parents 832
Epidermolysis bullosa letalis (Letters) 886
Erythema toxicum neonatorum, histologic observations in 219
Exchange transfusion (See Exchange transfusion)
Genital abnormalities associated with administration of progesteroids to mothers (Clinical Conference) 151
Hemolytic disease (See Hemolytic disease of the newborn)
Hyaline membrane, relationship to certain factors in pregnancy and delivery 42
Myasthenia gravis in 101
Neurologic lesions in relation to asphyxia and factors of pregnancy 616
Of diabetic mothers, body composition of 985
Perforation of small intestine in 261
Plasma 17-hydroxycorticosteroids in umbilical cords of infants of diabetic mothers at time of delivery (Letters) 333
Radioactive-iodine concentration in thyroid glands 771
Nitrogen balance (See Balance studies)
Normal, or standard, values in clinical medicine 973
Nursery school, therapeutic, role of pediatrician in 491

Otitis media, management of (Letters) 499
Otolaryngology, changing concepts in (Letters) 499

Petit mal (See Seizures)
PEDIATRICS ABROAD
Infant feeding practices in Israel 321
In Republic of Korea 696
PEDIATRICS AND SOCIETY
Pediatric view of general education 689
Pediatric surgery (See Surgery, pediatric)
Phenylalanine, treatment of phenylketonuria with diets low in 1
Phenylketonuria
In Jews (Letter) 885
Treatment with diets low in phenylalanine 1
Without mental retardation (Letter) 502
Phosphatase, acid, in serum of normal infants and children 281
Pneumonia, isolation of respiratory syncytial virus from patient with 623
Pneumoperitoneum in correction of abdominal hernia 273
Poisoning
Hazards of boric acid (Report of Committee) 884
Salicylate; significance of measurements of salicylate in blood 800
Poliomyelitis immunization (Report of Committee) 331
Polycythemia, adrenocortical hyperplasia and (Letter) 500
Postgraduate training, international, in social pediatrics 315
Potassium (See also Hypertonicity and Electrolytes)
Effect of depletion on function and structure of kidney 939, 950
In connective tissue, effect of alterations in extracellular fluid on 915
PRACTICE OF PEDIATRICS (See also Medical care)
Changing trends in (Letter) 162
Consultant pediatrician in general practice area 862
Fatally ill children, participation of parents in hospital care of 482
Management of office practice 141
Premature infants
Early feeding of dextrose saline solution 756
Electrolyte and nitrogen balance in newborn 777
Iron deficiency anemia
Oral and intramuscular iron in prevention 375
Significance, and prevention by intramuscular iron-dextran 368
Progesteroids, genital abnormalities in infants associated with administration to mothers (Clinical Conference) 151
Protein (See Balance studies, nitrogen)
Proteinuria, postural, mechanism of 190
Pseudopapilledema, macrocephaly and multiple hemangiomata (heredofamilial syndrome) 293
Psychiatry
Conflicts and rebellion during adolescence 839
Discussing problems in newborn infants with their parents 832
Emotional and behavior problems (Round Table) 700
PUBLIC HEALTH
Institutional care of children 693
Vital statistics 1018

Radioactive iodine, concentration in thyroid glands of newborn infants 771
Rectal biopsy in diagnosis of neural lipidoses 225
Renal
Artery, stenosis of branch causing hypertension; complication of translumbar arteriography 822
Diseases, diabetes insipidus 808
Function, tubular dysfunction complicating nephrotic syndrome 75

Renal (*continued*)
Function and structure
Effect of depletion of potassium, sodium or water on 939
Effect of potassium deficiency on 950
Resident training (See also Education and Medical care) (Letter) 162
Respiratory diseases
Hemadsorption viruses (para-influenzae) and others in 243
Streptococcal, effect of tonsillectomy on incidence and complications of 355
Respiratory distress syndrome (hyaline membrane disease), blood pressure of newborn infants in asphyxial states and in 735
Respiratory syncytial virus (chimpanzee coryza-agent), isolation from patient with pneumonia 623
REVIEW ARTICLES
Abnormalities of sex differentiation 846
Endocarditis, bacterial, in children with heart disease 993
Otolaryngology, changing concepts in (Letters) 499
Rheumatic fever, endocarditis, bacterial, in children with heart disease (Review) 993
Rubella, maternal, and congenital malformations 200

Salicylate poisoning, significance of measurements of salicylate in blood 800
Seizures
Petit mal, status epilepticus in 654
Vitamin $B_6$-dependency and 62
Sex differentiation, abnormalities of (Review) 846
Sickle cell anemia (See Anemia, sickle cell)
Silverman needle for bone marrow biopsy 310
Sinus arrhythmia (See Heart, disorders of rhythm)
Skin disorders
Epidermolysis bullosa letalis (Letters) 886
Erythema toxicum neonatorum, histologic observations in 219
Sleeping through the night, onset in relation to introduction of solid food, birth weight and birth order 667
Small intestine (See Intestine)
Smallpox
Studies on, complications of vaccination 176
Vaccinia immune globulin, sources of 336
Sodium (See also Hypernatremia and Electrolytes)
In connective tissue, effect of alterations in extracellular fluid on 915
Influence of depletion on function and structure of kidney 939
Splenectomy, effect on thalassemia 674
Statistics, normal, or standard, values in clinical medicine 973
Status epilepticus in petit mal 654
Stool collection in young infants 828
Streptococcal infections, effect of tonsillectomy on incidence and complications of 355
Stridor, congenital, associated with calcification of cartilage in trachea and larynx 669
Surgery, pediatric
Gastrostomy, temporary, in 36
Resection and primary anastomosis in stenosis and atresia of jejunum and ileum 265
SUPPLEMENT
Auscultation of the heart in infants and children 511

Tay-Sachs disease (See Amaurotic family idiocy, also Lipidoses, neural)
Teeth, discoloration in cystic fibrosis of the pancreas (Letter) 1050
Thalassemia (See Anemia)
Thymus, regrowth and overgrowth after atrophy induced by adrenocorticosteroids 762
Thyroid gland
Cretinism (Commentary) 732
Radioactive-iodine concentration, newborn 771
Tonsillectomy, effect on incidence and complications of streptococcal respiratory disease 355
Trace elements in infant nutrition (Report of Committee) 715
Tuberculosis
Primary, treatment 641
Prognosis of infants born of mothers with 97

Umbilical vein
Blood cultures from, in newborn infant 657
Negative pressure in—hazard of exchange transfusion 661
Urinary tract infection, diagnosis of 441
Urine
Collection in young infants 828
Cytology of sediment in childhood 255
Hyposthenuria, pathogenesis in sickle cell anemia and sickle cell trait 249 (Letters) 1051
Proteinuria, postural, mechanism of 190
Urogenital system
Appendix testis, torsion of 611
Genital abnormalities in infants associated with administration of progesteroids to mothers (Clinical Conference) 151
Sex differentiation, abnormalities of (Review) 846
Urinary tract infection, diagnosis of 441

Vaccination (See Immunization)
Vaccinia (See Smallpox)
Values, normal or standard, in clinical medicine 973
Virus diseases (See individual disease)
Viruses, hemadsorption (para-influenzae) and others in children with and without respiratory disease 243
Vital statistics 1018
Vitamin $B_6$
Content of infant foods 679
Dependency and convulsions 62

Water, effect of depletion on function and structure of kidney 939
